

FAST FACTS

MISSION

The mission of AUVSI is to advance the unmanned systems and robotics community through education, advocacy and leadership.

MEMBERS

AUVSI represents more than **7,500 individual members** and more than **600 corporate members** from **60+ allied countries** involved in the fields of government, industry and academia. AUVSI members work in the defense, civil and commercial markets.

AUVSI ACTIVITIES

EVENTS

- **AUVSI's Unmanned Systems Conference and Exhibition** - More than **8,000** attendees and **600+** exhibitors from more than **40** countries, an average annual growth rate of **20%**, makes this the leading event for the global unmanned systems and robotics marketplace. www.auvsishow.org
- **AUVSI's Unmanned Systems Program Review** - Providing the latest information on government and industry programs for ground, air and maritime systems, this annual event is one of the most important to the unmanned systems community. This is one event where business happens. www.auvsi.org/uspr
- **Networking Events** - AUVSI hosts meetings and events worldwide, providing education and networking opportunities for key industry leaders, including AUVSI's Driverless Car Summit.

ADVOCACY

AUVSI works with its membership to shape policy by advocating on behalf of the unmanned systems and robotics industry, monitoring legislation and assessing the impact of the industry. AUVSI plays a key role in addressing critical industry issues, such as National Airspace Access; Frequency Spectrum (GPS); NextGen; ITAR/Export Control; Self-Driving Cars; Navigation Rules (COLREGS); Coalition Building and more. AUVSI works to influence legislation, including the FAA Re-Authorization; Transportation Bill; DOD Re-Authorization; and Homeland Security Re-Authorization.

EDUCATION CAMPAIGN

AUVSI is working hard to change the public perception of the unmanned systems and robotics industry through promotion of our members and the endless applications and benefits of their systems. Part of this campaign includes a public website, www.increasinghumanpotential.org.

PUBLICATIONS

- **Print** - *Unmanned Systems* Magazine - A monthly magazine providing current industry news, trends, emerging developments, and a quarterly supplement *Unmanned Systems: Mission Critical* - dedicated to unmanned systems sectors that, once tapped, will change the way the world works.
- **Electronic** - *AUVSI's Unmanned Systems eBrief* - a weekly electronic newsletter that includes the latest global industry and association news and information.

ONLINE CAREER CENTER

A leading resource for job-seekers and employers in the unmanned systems and robotics market.

KNOWLEDGE RESOURCES

Through its knowledge services AUVSI promotes vision, intellectual leadership and education in unmanned systems. AUVSI's Knowledge Vault provides AUVSI members a one-stop shop for all AUVSI reports, event proceedings, publications and the most comprehensive searchable online database of vehicle platforms and specifications.

AUVSI FOUNDATION

The AUVSI Foundation is a tax-exempt 501(c)3 public charity established to support educational initiatives such as AUVSI's Youth Education Program, discussion groups, forums, and other programs. The Foundation has provided

more than \$500,000 to educational programs worldwide. Each year, the AUVSI Foundation hosts and sponsors competitions to challenge students to design, build and deploy autonomous air, ground and maritime systems.

INTERNATIONAL CHAPTERS AND REGIONS

CHAPTERS

AUVSI encourages the development of regional chapters to provide and facilitate information exchange on unmanned systems and robotics issues. Many chapters host conferences, luncheons, networking functions and other events that bring together unmanned systems professionals representing all industry disciplines.
